***Election***

1. Applicant's election of Invention II, claims 3-5, in the reply filed on 3 April 2006 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. Claims 1 and 2 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected Invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 3 April 2006.

***Examiner's Amendment***

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

4. This application is in condition for allowance except for the presence of claims 1 and 2 directed to Invention non-elected without traverse. Accordingly, claims 1 and 2 have been cancelled.

***Reasons For Allowance***

5. The following is an examiner's statement of reasons for allowance:

A combination of separate storage means that stores inspection data obtained from inspection of a wafer in a first storage means, stores non-conforming judgement criteria in a second storage means and further stores position information of each non-conforming chip within a surface of the wafer determined by a defective chip identifying means to determine a defect among all chips formed on the wafer and to further determine a type of defect that the identified chip has as fully detailed in independent claim 3 has not been found. It is further noted that the examiner's reasons are understood to be predicated upon consideration of each of the claims as a whole, and not upon any specific elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Henley (5391985), Shishido et al (6087673) and Hiroi et al (2003/0007677) show methods and apparatus for inspecting patterns on integrated circuit structures by comparing measured or observed criteria with reference data.
